### THEIR FIRST CALL.

The Little Soldier Boys Entertain Their Little Girl Friends.

The little soldier boys of Nogales had their first ball Saturday afternoon at the Nogales Athletic rooms. There were soldiers present ranging in ages from three years up to fourteen all in full uniform and there were little girls in great numbers of corresponding ages. There were also many grown people there to witness the small soldier boys' first ball.

Uncle John Roberts, the father and protector of the little company, was there dressed in his best suit of clothes the idol of the youngsters.

Mrs. F. M. Main, Mrs. W. S. Bowman, Lieut. Ricardo Fleischer and Captain Edwards assisted the young dancers in the evolutions of the grand march and other dances while Banjo Dick furnished the music. The entertainment will be a pleasant memory to the little boys and girls who participated for many years to come. The little ones present were:

Allice Sevey, Lella Gilbert, Ruth Bowman, Roberta Lindsay, Edith

Pellegrin, Frances Brown Armenta Crow, Esperanza Sevey, Dora Hannah Lila Hathaway, Mabel, Myrtle, Pearl and Ida Marleau; Alice Pettipain, Ernestine Miranda, Lupa, Lila, Maggie, Florencia and Ella Brickwood, Isabel Carpenter, Ella Leater, Ida Brum, Myrtle Short, Mary Brum, Lillie Thompson, Margarita Langer, Emma Watts, Misses Sullivan, Steve Aguirre, Jr., Daniel Searles, Mary Clond, Ethel Doherty, Harry Chenoweth, Jr., Willie and Jimmie Hathaway, Arnet Cook, Capt. Johnny Brickwood, Walter Hannah, Fred Hannah, Owen Walker, Bugler Alex Gray-Lully, Jesse Marleau, Charley Marleau, Willie Watts, Harry Hannah, Ivo Bogan, Ed Hogan, Eugene Brown, Augustin Bremway, Stuart Bogan, Allen Tracy Bird, Arthur Duane Bird, Willie Cummings, Ed Mix, Roy Bowman, Roy Herrera, Charley Brown, Francis Duffy, Pen Aguirre, Earnestine Mears, Loraine Chenoweth, Elsie Bester, George Biester, May Biester, Gladys Lindsay, Verneyland Flossy Sullivan, Nellie Hathaway, Josephine Chenoweth, Eugene Sykes, Edith Carlett, Hattie Carlett, Lulu Sykes, May Peck, Roy Peck, Lulu Kunkle, Josephine Mix, Ollie Doherty, Roy Mix, Edith Mix, George Warral, Elisa Mix.

Lunch was served to the little ones and they went home happy after three hours of pleasure.

### Falling Off.

The importations of Mexican cattle into the United States have reached a low ebb. The falling off is not due to any decrease in the demand for Mexican cattle, for feeders are scouting that country for stock, but it seems the supply is rapidly running short. The total number of cattle imported into this country during September was 2,183 head. Of this number 1,822 came into Texas, 1,525 by the way of Eagle Pass and only 297 through El Paso. Among the shipments were 1,565 steers and 550 cows. The largest number of cattle brought into the United States this year was in April, when 37,718 head, were received, and the largest month on record was April of last year when the importations reached 73,489 head. Thus far this year the imports have reached 120,885 head. For the same time last year 193,278 head crossed the border.—Stockman.

### PURE WELL WATER.

No Impurities in the Nogales Water Supply.

Much of the health of Nogales is due to the splendid water supplied by the Nogales water company. Their wells are over fifty feet higher than Tucson's house, which is the highest in town and the water supply comes from above any impurities that arise from the seepage from privy vaults and graveyards in wells in a town like Nogales that has no sewerage. There is no doubt about the unhealthy condition of the water in wells in town. There are many wells right alongside cess-pools and privy vaults. These wells are bound to be poisoned from the filth from these places as any physician will say who might be consulted. There is only one way to avoid this condition and that is to use the city water that is pure and healthful by virtue of its being far above such places. We are not pulling for the water company but merely stating facts that are born out by the testimony of people who have passed through spells of sickness directly attributable to the use of Nogales well water. Nine-tenths of the cases of fever and such diseases have been with people who use local well water. We will say this much about the water company. It is a legitimate enterprise and is a credit to the town and as long as it furnishes pure water at reasonable rates there is no reason why every family in town should not take their water from it and run no chances of using germ poisoned water from local wells. The more people who use city water too, the cheaper the rate will be and the better service they will get from the company. We have no doubt but the management will do their best to accommodate the wants of the customers. It would naturally be to their interest to treat the people right and give good service. By so doing the public will be encouraged to patronize the system and thereby swell the company's receipts.

### Mineral Resources of Cuba.

The mineral wealth of the Island of Cuba is varied and abundance. Soon after its discovery, the Island became famous not only for the quantity of gold which was found there, but also for the excellent character of that metal, which was deemed superior to that of Haiti. Silver is also found in several localities, and some mines which, up to a few years ago, were worked in the neighborhood of Santa Clara, are said to yield an average of 7½ per cent of pure metal. But the real mineral wealth of the Island of Cuba consists in its almost inexhaustible copper mines, most of them in the eastern part of the island, in the neighborhood of Santiago, where the majority of the ore extracted yielded an average of 60 per cent of pure metal, while in some localities the yield goes as high as 75 per cent. In 1891 the total number of mining titles issued in the district of Santiago alone was 266, covering an area of 13,727 hectares. Not all these mines, however, were copper. Some of them were iron mines and some of them manganese. Iron is found almost without any trouble through the whole extreme of the island from Santa Honda to Bamaoca.—Bureau of American Republics.

### Her Health Restored

THE misery of sleeplessness can only be realized by those who have experienced it. Nervousness, sleeplessness, headaches, neuralgia and that miserable feeling of unrest, can surely be cured by Dr. Miles' Restorative Nervine. So certain is Dr. Miles of this fact that all druggists are authorized to refund price paid for the first bottle tried, providing it does not benefit. Mrs. Henry Bruns, wife of the well known blacksmith at Grand Junction, Iowa, says: "I was troubled with sleeplessness, nervousness, headache and irregular menstruation; suffering untold misery for years. I used various advertised remedies for female complaints besides being under the care of local physicians, without help. I noticed in Dr. Miles' advertisement the testimonial of a lady cured of ailments similar to mine, and I shall never cease to thank that lady. Her testimonial induced me to use Dr. Miles' Nervine and Nervine and Liver Pills, which restored me to health. I cannot say enough for Dr. Miles' Remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR.
